

# “Scientific Writing”

- 英語による医学研究論文の正しい書き方 -

*a learning-by-doing workshop*

**April 5<sup>th</sup> & 6<sup>th</sup>** (Mon.-Tue.) at **Gonryo Kaikan**

**By Mr. JITENDRA KHANNA**

**Technical Editor,**

The WHO Reproductive Health Library,

Dept. of Reproductive Health and Research,

**World Health Organization**

It teaches the skills medical researchers need to write scientific research papers in English, especially for publication in international peer-reviewed journals. The course covers all aspects of a research paper, including the title, abstract, introduction, material and methods, results, and discussion.

Although as such the course does not attempt to teach English, some time is spent on style and English usage.

## ■ **Participants and requirements**

- Participants can range from scientists beginning their research careers to people who have published many papers and who want to learn more about scientific writing in order to help their junior colleagues.
- Participants must have a good level of proficiency in writing, speaking, and understanding English.
- **Free of charge !** (Limited to 15 participants)
